

PEDAX develop, produce and globally sell machines and systems for the processing of reinforcing steel. We are especially strong in the design of complete and long lasting machine solutions. PEDAX has approx. 100 employees and is Danish owned with headquarter and production facilities in Bitburg Germany and offices in Esbjerg Denmark. PEDAX is represented in over 40 countries worldwide via a broad agent network.

We are very busy and now wish to expand our international service team with a

Service engineer (m/f) for Scandinavia

As service engineer with PEDAX, you will – after an introduction period – have an interesting job very close to our customers. You will become part of a strong international service team and the task you will be solving comprise:

- Installation and commissioning of new machines and systems.
- Service visits and repair work with our many existing customers
- Fault finding and diagnostics
- Contribute to continued strong customer relations
- Own travel administration

You must be motivated by travelling and staying close to the customers everyday. You are the problem solver, who has the overview and keep the spirit high, also when things get heated. To be successful in this job, we would expect that you:

- Have an education as electrician, electro mechanic, plumber, auto mechanic or similar
- Have professional experience with mechanics, hydraulics, electro mechanics
- Have good computer knowledge
- Speak and write English and Scandinavian. Knowledge of German is a further advantage
- Are willing to travel extensively
- Are customer oriented, structured and with confidence, also when things are moving at high speed.

PEDAX is an interesting international company. We offer a job with a high degree of freedom to make decisions and with extremely diverse tasks and challenges. You work mainly starting out from your home and will be in close contact with the headquarter in Bitburg Germany as well as the service office in Esbjerg Denmark. We offer you a good salary as per your qualifications and an own service-vehicle.
